

# 25 Mistakes Our Country has Made in Policy and Practices, and How to Correct Each One

By Charles Paidock  
for the  
College of Complexes

We must maintain a receptive attitude towards that sort of change and complication which is sometimes called progress

The United States has come to regard itself as the common standard of achievement for all peoples and all nations

What follows however are matters that merit attention...

# North American Indian treatment and treaties

Ethnic minority or  
afforded separate  
nation status?

# Deforestation

need to preserve /  
restore the habitat of  
a primitive, elusive  
species living in the  
forests of the US

afford tribal  
recognition or list as  
an endangered species

Effect an immediate moratorium on all lumber harvesting for a 5 to 10 year period pending a national assessment by BLM

# Investing in China instead of Central and South America

commence a western vs  
a Spanish colonial  
culturalization process

Reorganize cities and states  
into Bio-Regions  
e.g., Great Lakes Basin

Self-Governance of certain states should be rescinded, and put under federal control, for failure to meet minimal rule of law standards

# Re-configure All Municipalities / Neighborhoods into Eco-Villages

# Public Orchards

a collection of fruit trees shared by communities and growing in publicly accessible areas such as parks and schools

The government should declare eminent domain in order to create “greenspaces”

private sector farm / food operations

Across the Nation  
Connecting  
Small Cities

100%  
Made and  
Maintained  
in the USA  
using bio-fuel  
with high mpg  
or batteries

Since 1790 there have been as many as 47 economic Depressions / Recessions in the United States

1837 - 1844

1893 - 1898

1929 - 1941
